EDUCATION

- **University of Luxembourg | Master in Finance and Economics |** September 2026 - Present
- **Symbiosis School of Economics (SSE) | BS Economics Hons. | CGPA: 8.83, Top 1%** (2022 - 2025) | **Relevant Subjects:** Micro/Macroeconomics, Money Banking & Finance, Corporate Finance, Portfolio Management, Econometrics, Statistics

WORK EXPERIENCE

- **Accenture | Ind and Func AI Decision Science Associate | High Tech Practice, CMT | S&C GN, Data & AI | 14 months (June 2025 - August 2026)**
  - **Qualcomm Market Intelligence & Research Analytics:** Owned the earned media communications stream. Share-of-voice (SOV) tracking, product launch monitoring, speakership coverage, competitive benchmarking, and multi-vendor and agency coordination, including Meltwater, Brandwatch, Datorama and agencies. Designed and delivered **18+ AI-powered automation tools** that took reporting from raw data to finished dashboards/reports.
  - **Snapdragon X Review KPI Pipeline:** Built a data extraction, quality checks and cleaning + LLM-extraction + embedding-clustering pipeline tagging consumer reviews across 6+ KPIs and 15+ ecommerce sites, turning hours of manual analysis into near-instant, always-current dashboards.
  - **Client Account Lead (CALs) Communications:** Built multichannel outreach and sales collaterals enabling deal origination and business development conversations for the Hi-Tech practice.
  - **Impact:** Shrank per-market querying + dashboarding from **days to seconds** across 8 markets; automated daily, weekly and monthly market, competitor, SOV and persona tracking and reconciliation (**8 countries, 5+ functionalities**) in place of manual spreadsheets.
  - **Completed advanced AI/ML and GenAI training,** building 4 proof-of-concept (PoC) use cases; named **Champion of the Quarter (FY26 Q1)** for above-and-beyond performance.

SKILLS

- **Blockchain & FinTech:** Solidity & smart contracts (Foundry + Hardhat), tokenization standards (ERC-3643/T-REX, ERC-721), DvP settlement design, post-trade & compliance infrastructure, DeFi market structure, digital asset regulation
- **AI/GenAI & Data:** Multi-agent systems design and implementation, LLM orchestration, classification and machine learning modelling, RAG, prompt engineering; Python & SQL; Power BI, Databricks, GCP, Meltwater, Brandwatch, Datorama
- **Finance & Quant:** Portfolio management, econometrics, backtesting, financial statement analysis
- **Languages:** English (Fluent) | French (A1, DELF)

AWARDS AND RECOGNITIONS

- Batch Topper Sem I | Scholarship Recipient Sem I, II, III & V | Nominated, University-Wide Gold Medal | O+ in dissertation | Director's Special Recognition Award | Best Member, Investor's Community
- National Winner, Jamia Milia Islamia Techno-Blogathon | National Runner-Up, DTU Guesstimate Competition | National Runner-Up, Chandigarh University Debate Competition

PROJECTS PORTFOLIO

- **Project Ventra (Provisional Patent Filed):** Real-time post-trade reconciliation and programmable compliance bridging legacy systems with tokenized on-chain settlement - T+0 atomic settlement, lower counterparty risk. (Whitepaper + Deck)
- **Project Tawtheeq:** Blockchain-based alternative credit lending platform for Dubai SMEs, enabling collateral-free financing from real business activity. (Deck + Demo + GitHub)
- **DvP Settlement PoC:** Security-token DvP settlement prototype with smart contracts, API, dashboard for issuance, investor approval and trade settlement. (GitHub)
- **AI Unit Test Generator | Luxroom AI | Project Atlas:** Open-source LLM-based test generator; AI agent automating Luxembourg housing search; On-Device AI powered fitness & nutrition app. (AI-Unit-Case | LuxRoom-AI | Atlas)
- **Research & Analytics Portfolio:** DeFi infrastructure, monetary policy spillovers, systemic risk, digital asset regulation, semiconductor corporate finance research. (Link)

INTERNSHIP EXPERIENCE

- **Accenture | Summer Intern, S&C GN, Data & AI | 2 months | May 2024 - July 2024:** Built Hi-Tech sales collaterals for multi-client engagements; built a V1 PoC integrating pricing optimization and GenAI features for a MedTech-focused demoable asset.
- **Saibaba Sevashram and Yoga Research | Student Community Intern | 1 month | May 2023 - June 2023:** Managed social media and assisted with website construction, strengthening the NGO's digital visibility.
- **Aarogya Hub | IT Development, Part-Time Intern | 3 months | November 2021 - January 2022:** Built and launched a WooCommerce selling app (+40% sales); built a client/sponsor database for targeted marketing (+35% new customers).

STUDENT ORGANISATIONS

- **Head, IT & Social Media Club, SSE | 1 year | July 2023 - April 2024:** Conducted regular Python, Blockchain, and ML/AI workshops for BSc and MSc batches.
- **Head, Niverve Fest IT Team, SSE | 3 months | December 2023 - March 2024:** Built websites and automation systems for SSE's Annual Cultural Fest (+~80% productivity).

CERTIFICATIONS

Google BI Professional Certification, DataCamp Data Scientist with Python Track, Kaggle Data Science Certifications (Introductory), IIT Kanpur AI in Investments
